

# TimeStart® Swipe System

A swipe system that links to Computer or directly to a dedicated DOT matrix serial printer. This system is ideal for companies that want a swipe terminal but may not want to connect to a Computer. Providing accurate timekeeping and detailed reports, all functions of the terminal are accessed by using a security PIN code at the keypad. Recommended for up to 100 employees. TimeStart system is the ideal time recording solution for companies requiring something more than just an old-fashioned mechanical clocking-in machine.

## PC Software:

TimeStart software can automatically produce management reports any time of the day or night accessed via your PC. TimeStart software was designed with the goal of meeting the criteria of small to mid sized organisations with simple time and attendance requirements. The software was designed from the ground up and is very user friendly requiring only 20mins training.

## System features:

- Edit employees swipe data from PC or directly from terminal via key pad
- Can link directly to serial DOT matrix printer (Option)
- Calculates employees normal and overtime hours
- Monitors lateness/early departures
- Ideal for up to 100 employees
- Name display when swiping IN/OUT
- 1 basic and 3 overtime rates
- 10 daily schedules with rounding rules, grace times and automatic lunch deductions
- Daily, bands or weekly overtime rules
- Automatic schedule selection
- On screen balance enquiry for current status of basic and overtime hours
- Full supervisor editing facilities via PIN code
- Bell ringing facility.
- Automatic BST/GMT time changeover
